

EXHIBIT 5
DATE 1/7/9
HB 151

January 7, 2009

The Women's Democratic Caucus strongly supports HB 151 because we understand the critical threat of breast cancer; moreover, we recognize the physical, mental and emotional trials that mastectomy can present. Montana should no longer lag behind the federal Women's Health and Cancer Rights Act.

Therefore, the Women's Democratic Caucus urges you to support HB 151.

Thank you,

Cheryl Steenson
Montana Women's Democratic Caucus
